

“ 4 Key Facts you need to know about St. Helen Catholic School ”

Moral/Spiritual Development

We are more than a school - Our students learn compassion and action for the needs of others and to live and share the Gospel message of Jesus Christ. Whether it's a food drive for outreach, helping a classmate, or serving at our weekly school Mass, students are taught to recognize their faith in big and small ways.

Strong Academics

We help students develop key learning and thinking skills that are the foundation for success in high school and future learning. Our 1:1 iPad program provides an excellent opportunity for our students to be productive learners as they enter a global environment that will require technology skills, collaboration, and teamwork.

Holistic Education

The education we provide is different and special because we educate the whole child – mind, body, and soul. We understand that we are helping shape a son, daughter, future leader, or next-door neighbor – not just a student with a test score.

Individualized Attention

Every student in our school is known and valued in a safe learning environment. For some, the decision of elementary school is a nine-year decision. For us, it is the choice for a lifetime of learning and relationships. We are a family.
