

“ 4 Key Facts you need to know about St. Juliana Catholic School ”

Moral/Spiritual Development

Students are led in prayer each morning preparing them in mind, body and spirit. Catholic Mass is held weekly and younger students enjoy the benefits of older students participating as prayer partners. We pride ourselves with cultivating our Catholic faith, gospel values and academic excellence through educating the whole student to form intelligent leaders and members of our community.

Strong Academics

We provide advanced Math and ELA tracks, available to all middle school students, as well as resource programs to reach all levels of learning. Interactive boards/technology is used to enhance instructional delivery and participation in math competitions and our science fair is required.

Holistic Education

We value an education that supports a holistic environment. One that motivates students to engage through elements such as National Junior Honor Society, National Junior Honor Art Society, Mileage Club, Builder's Club, Chess Club and Student Council. We encourage team sports and intramural sports for our younger grades and offer additional programs in band, dance and karate.

Individualized Attention

Individualized attention is provided by our highly qualified and caring staff, in a small school environment, which allows us to support each student along their academic journey from Pre-K 3 to 8th grade.
